To be used in conjunction with the formative assessment form. To include elaboration on positive outcomes, and strategies and suggestions for improvement, as well as comments on any oral feedback provided to the student teacher.

Kiel has made a great impression on the music department. He was a perfect fit in our teaching team, taking on any challenge that was thrown his way and often looked for more. He built a number of relationships with the students, he is very approachable. Kiel is a natural teacher, he has great classroom management skills, has a great sense of humour and keeps the flow of the class running smoothly. It is obvious through his teaching that he cares a great deal about his subject as well as his students. He carried himself like a real pro from the time he started at B.H.S until the final day of his stage. While he will be missed, I have no doubt that he will be a huge asset to any school that will have him.
